Comprehensive Credentialing and Enrollment Now Available for APS Members

Overland Park, KS (June 19, 2019) – The more than 300 hospitals and other healthcare organizations in Kansas and Missouri that depend on APS for innovative, cost-effective solutions and services now have access to qualified third-party credentialing and enrollment capabilities.

Hospital Services Corp. (HSC) is a certified credentials verification organization (CVO) offering comprehensive credentialing and enrollment services to APS membership. The company was founded in 1985 as a subsidiary of the New Mexico Hospital Association and currently provides credentialing and enrollment to nearly 80 healthcare organizations in 15 states.

HSC is fully certified by the National Committee for Quality Assurance (NCQA) and strictly adheres to Joint Commission, DNV, NCQA and other standards. Thanks to a full range of automated solutions, HSC is an industry leader in credentialing and enrollment turnaround time.

“Like APS, HSC was created by hospital association leadership to provide an important service to provider members,” said Dennis George, chief executive officer of APS. “They’re truly a leader in the field of outsourced credentialing and enrollment and we’re proud and excited to have them as part of the APS team.”

HSC’s credentialing capabilities include primary source verification of education, licenses, board certification, malpractice coverage, claims history, hospital affiliations and work history. Reference confirmations include state and federal drug enforcement registrations, National Practitioner Data Bank queries, Office of Inspector General sanctions and Medicare/Medicaid sanctions.

Enrollment is provided for all federal, state and commercial payers and includes multiple automated features to expedite the process. Credentialing and enrollment services are available separately or together from HSC.

“Because of our close affiliation with a hospital association, we understand the many challenges facilities face when it comes to credentialing and enrollment,” said Deborah Gorenz, president of HSC. “We’re looking forward to sharing our expertise with providers in Missouri and Kansas and bringing a cost-effective, dependable credentialing and enrollment solution to the region.”

For more information about HSC, visit their [website](#) or contact Joni Pompeo, jpompeo@nmhsc.com, or toll-free at 866-908-0070.

About APS

Jointly owned by Kansas Hospital Association (KHA) and the Missouri Hospital Association (MHA), APS is a member-focused healthcare services company that increases contracting efficiency and reduces overhead costs for member-organizations by coordinating the research and development of product and services contracts. Based on the purchasing power of our members, our experienced team negotiates agreements with local and regional vendors, then passes along superior pricing, terms and conditions.
